

YERUSLAV KRUPETSKY

FULLSTACK DEVELOPER

+972 52-684-9877 | yeruslavk@gmail.com | [Linkedin](#) | [GitHub](#)

ABOUT ME

Fullstack Developer specializing in **MERN stack**, scalable web applications, and real-time systems. Passionate about optimizing backend performance, enhancing user experiences, and building production-ready applications. Skilled in developing dynamic, high-performance applications using MongoDB, Express.js, React, and Node.js with great interest in AI implementation.

TECHNICAL SKILLS

Frontend

- React
- Next.js
- Vue.js
- HTML + CSS + JavaScript
- Tailwind CSS + Bootstrap
- TypeScript

Backend

- Node.js
- Python
- Flask + FastAPI
- MongoDB
- Postman
- SQL + NoSQL

WORK EXPERIENCE

Full Stack Developer, [Point of View 360](#)

Nov 2024 - Present

- Developed and deployed an AR application for **Champion Motors**, a leading automobile importer, including brands like **Seat** ([Click to open](#)) and **Cupra** ([Click to open](#)).
- Optimized the frontend for seamless user experiences across desktop and mobile platforms.
- Managed the deployment process by uploading files to a production server, ensuring reliable access and performance.
- **Tech Stack:** HTML, CSS, JavaScript, jQuery, Three.js.

PROJECTS

[Real Time Chat Application](#) (Click to open)

- Designed and built a real-time chat application with secure login and live user tracking.
- Designed customizable user profiles for a personalized experience.
- Implemented **JWT** authentication for enhanced security and Socket.IO for real-time messaging.
- **Tech Stack:** React.js, Zustand, Tailwind CSS, Node.js, Express.js, Socket.IO, MongoDB, Mongoose.

AI-Powered Text Summarization Tool Application

- Developed an AI-powered text summarization application with user-adjustable summary length.
- Utilized the BART transformer model and TF-IDF scoring to enhance summary quality and relevance.
- Improved backend performance by 20% using **FastAPI** optimizations.
- **Tech Stack:** Next.js, TypeScript, Tailwind CSS, FastAPI, Python, PyTorch, LLM, Transformers.

EDUCATION

Fullstack web developer certification

[Technion](#), Jan 2024 - Aug 2024

- Gained hands-on experience with modern web technologies, including React, Node.js, and MongoDB.
- Developed practical expertise in backend technologies, including Node.js, Express, MongoDB, SQL, and API testing with Postman.
- Learned best practices in software development, including debugging, testing, and deploying full-stack applications.
