YERUSLAV KRUPETSKY

FULLSTACK DEVELOPER

+972 52-684-9877 | yeruslavk@gmail.com | Portfolio | Linkedin | GitHub

ABOUT ME

Fullstack developer with MERN expertise, passionate about crafting responsive, intuitive, and visually engaging user interfaces. Skilled in building scalable React applications, integrating seamlessly with backend APIs, and optimizing performance for a smooth user experience. Seeking a role on a creative team focused on delivering elegant, user-centric fullstack solutions.

TECHNICAL SKILLS

Frontend

- React
- Next.js
- Vue.js
- HTML + CSS + JavaScript
- Tailwind CSS + Bootstrap
- TypeScript

Backend

- Node.js
- Python
- Flask + FastAPI
- AWS
- MongoDB
- NoSQL

WORK EXPERIENCE

Full Stack Developer, Point of View 360
Nov 2024 - Present

- Developed and deployed an AR application for **Champion Motors**, a leading automobile importer, including brands like **Seat (Click to open)** , **Skoda (Click to open)**, **Cupra (Click to open)**.
- Optimized the frontend for seamless user experiences across desktop and mobile platforms.
- Managed the deployment process by uploading files to a production server, ensuring reliable access and performance.
- **Tech Stack:** React, HTML, CSS, JavaScript, jQuery.

PROJECTS

AI-Powered Holiday Map Builder (Click to open)

- Designed and deployed a personalized travel map generator that adapts trip suggestions based on user-selected criteria such as destination, trip length, and holiday type.
- **Fine-tuned an OpenAI model** with ~100 high-quality travel examples, increasing the relevance and specificity of location recommendations over the base model.
- Integrated OpenStreetMap for real-time map rendering and added KML export functionality, boosting user interaction and map downloads.
- **Tech Stack**: Next.js, TypeScript, TailWind CSS, FastAPI, Python, OpenAI API, OpenStreetMap.

Real Time Chat Application (Click to open)

- Designed and built a real-time chat application with secure login and live user tracking.
- Designed customizable user profiles for a personalized experience.
- Implemented JWT authentication for enhanced security and Socket.IO for real-time messaging.
- **Tech Stack**: React.js, Zustand, Tailwind CSS, Node.js, Express.js, Socket.IO, MongoDB, Mongoose.
